Good morning Niecy,

I need a clear explanation as to why the PWS for Westside Lead is taking so long for approval. The PRP Search for the Site was brought up in a meeting this morning with Randall regarding the Site. Randall wanted a explanation why the PRP Search was being held. Could please provide me an explanation as to what is going on.

Good morning everyone,

PR 00483 for Westside Lead is pending in AMS.

Thanks,

Niecy

Ray,

It is not a full blown PRP Search. It was for address verifications and an IS only, but I have not heard anything from the 14th floor. I will copy Niecy on this email. She may know the status or be able to get a status from the 14th floor.

Annette,

What is the status of the PRP Search?
